Thankyou,

At Jamestech we recognise the need for an inexpensive, efficient supply of specialist services provided for Remote Area operations; where we are prepared to travel anywhere to support operational requirements.

With Jamestech being a Licensed Electrical/Mechanical and Engineering Contractor, as well as Aviation/Aerial Operator, we understand the whole Mining, Refining, Oil and Gas and other Heavy industries, sourcing only highly skilled staff with a variety of experiences to assist our clients in ways other service contractors are unable.

I am confident Jamestech can be a very competitive engineering and aerial contractor and feel that we can always supply a quality product with our own local staff, to assist you with all your specialist project and technical labour needs.

Regards

Darren Caulfield
Director / CEO

THE JAMESTECH VISION
